

- OUR SOLUTIONS**
- **Agile or advanced robotics** to manage your fragmented productions, unique pieces
  - **Multifunction & multiapplications** to complete the manufacturing of your large product
  - **Solution to avoid 4D jobs :** dirty, dumb, difficult or delicate tasks
  - **Scalable / reconfigurable and easy to use**
  - **Connected and securised manufacturing**

## OUR MODELS (some application)

**NDT cell** for control of A350 structural composite parts (Stélie, Airbus Group)

**Multifunctional machining Solo cell** for composite (Nimitech, Lauak...)

**Metal additive manufacturing Gemini or Solo cell** parts > 5 m (Irepa Laser, SNCF, Cetim, CRM)

**Additive manufacturing Compaqt cell**
